paul a samuelson was the first american nobel laureate in economics and the second overall he was credited for the scientific work through which he has developed static and dynamic economic theory and actively contributed to raising the level of analysis in economic science that recognition is now thirty years old and samuelson remains at work in the cutting edge of the discipline he is also widely known for a basic textbook that became a landmark learning tool throughout the second half of the twentieth century this excellent collegial appreciation focuses heavily on samuelson s foundations of economic analysis in that work and a series of brief essays he has contributed to an integration of statics and dynamics by way of the correspondence principle he has also combined the multiplier and accelerator mechanisms in a model of economic fluctuations he has reformed the foundations of consumption theory by his concept of revealed preferences he has developed or improved several major theorems within international trade and created theories of maximum efficiency and maximum growth rate finally he has clarified the role of collective goods in resource allocation in considering the work and life of samuelson editor puttawamaiah has assembled a worthy group of brilliant commentators among the analytic papers in this volume are an essay on the accuracy of economic prediction by l r klein analytical aspects of anti inflation policy by robert m solow a paper by vittorangelo orati on samuelson s linkage to schumpeter and keynes money and price theory by carlo benetti and jean cartelier and a concluding essay on the role of samuelson s economics by michael emmett brady most unusual in works of this kind are some strong critical statements including a pungent examination of vanity as well as creativity in samuelson s work what emerges is a clear picture of a special scholar scholars and students will welcome it alike a result that well fits the purpose and character of samuelson the festschrift has its origins in several issues of the international journal of applied economics and econometrics professor k puttawamaiah has more than three decades of editing journals in economics he is a member of the journal

savings and development issued at the university of milan he is author of economic development of karnataka cost benefit analysis and nobel economists lives and contributions

this book analyzes the dynamic macroeconomic effects of public capital in industrialized countries the issue of whether public capital is productive has received a great deal of recent attention yet existing empirical analyses have been limited to a small set of countries this book presents a new database that provides internationally comparable capital stock estimates for 22 oecd countries for the 1960 2001 period building on this database the book estimates the dynamic effects of public capital using a variety of econometric methods the results suggest that public capital is productive in oecd countries on average the theoretical analysis based on a dynamic general equilibrium model shows that the effects of public capital depend crucially on the way the government chooses to finance additional spending

concise engaging and highly intuitive economics a primer equips you with an understanding of all the basic principles of economics it is designed specifically for readers with no prior knowledge of the field technical content is kept to a minimum and the universal principles of economics are distilled at its core economics is simply the study of how humans behave and the choices which they make chrystal and hayley emphasise the practical application of economics for an individual as a consumer saver and employee and within the context of business and financial decision making this approach ensures that the connection between economic theory and our everyday lives is illuminated whether you are taking a short course in economics are about to begin an economics or related degree or simply want to understand the theories which lie behind the headlines this book which will ensure you master the core concepts supported by online resources to take your learning further for students multiple choice questions weblinks summaries of key concepts bespoke videos of the authors summarising each chapter for lecturers powerpointrg slides
